Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 February 2003.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

This Office action is in response to the amendment filed February 20, 2003 in which claim 1 was amended and claims 16-18 were added.

The rejection of claim 1 under 35 USC 103(a) is withdrawn in view of the amendment to the claims and applicant's arguments.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 and its dependents are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rejected because the claim as amended is confusing. The examiner assumes that the newly added limitation is referring to the amount of catalyst used in the process. However, given the position where Applicant has inserted the limitation, the limitation refers to the oil or fat. Clarification and correction are required.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 1 and 5-18 are rejected under 35 U.S.C. 102(a) or (e) as being anticipated by Sasaki (US 6,187,939).

Art Unit: 1714

Sasaki teaches a method for preparing fatty acid esters and fuel comprising fatty acid esters, wherein fats and oils with an alcohol are reacted in the presence of a catalyst under a condition wherein at least one of the components will be in a supercritical state (see abstract; col. 5, lines 1-5). Sasaki teaches that the catalyst may be an alkali or alkaline earth carbonate (see col. 5, lines 11-16) and is present in the process reaction composition in an amount up to 0.1 wt %. The fats may be waste oils (see claims 8 and 9). The esters may be used as diesel fuel, fuel additives or as a lubrication base oil (see col. 6, lines 6-10). Sasaki exemplifies reaction temperatures far in excess of 260 C (see examples).

Accordingly, Sasaki teaching all the material limitations of the claims, anticipates the claims.

5. Applicant's arguments filed have been fully considered but they are not persuasive.

Applicant argues that Sasaki does not teach the required amount of catalyst. Applicant argues that Sasaki teaches only minor amounts of the catalyst should be used in the process.

The examiner respectfully disagrees. Sasaki teaches that the catalyst is added to the reaction system in an amount of 0.1 wt % or less. This teaching anticipates the claimed amount of catalyst.

6. Claims 3 and 4 are allowable because the prior art fails to teach the process for producing a fatty acid ester wherein the catalyst is a nickel-containing solid catalyst.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
